## CAREER OBJECTIVE:

Aiming to be a part of competitive and challenging environment where I can establish an enjoyable career for myself. Eager to embark on a dynamic career in the technology industry, leveraging my programming skills, creativity, and problem-solving abilities to contribute to cutting-edge projects and drive innovation.

## EXPERIENCE SUMMARY:

- Expertise in the software development industry, including application programming and business application development.
- Proficient in analysis, design and development, of Web Applications using Microsoft Visual Studio IDE and ASP .NET, ASP .NET Core, C#, Entity Framework, ADO .NET and ASP .NET MVC.
- Worked in designing and development of Single-page client applications using Angular, TypeScript, HTML, CSS, Bootstrap.
- Strong understanding in Angular concepts such as components, services, and modules.
- Strong problem-solving skills and a deep understanding of software development principles.
- Committed to delivering high-quality, scalable, and efficient solutions for complex business challenges.
- Adept at collaborating with cross-functional teams to design and implement innovative software applications.
- Keen on staying updated with the latest industry trends and technologies to ensure the highest level of performance and excellence in software development.

## TECHNICAL SKILLS:

| | |
|---|---|
| Programming Languages: | C#, C, C++, HTML, CSS. |
| Web Technologies: | ADO .NET, ASP .NET, ASP .NET MVC |
| Frameworks: | Angular, .Net Framework, ASP .Net MVC, ASP .NET Core. |
| Database: | MS SQL Server-2018 |
| IDE/Tools: | Visual Studio 2019, Git. |
| Scripting Languages: | JavaScript, TypeScript. |

## CAREER PROFILE:

| Dates | Organization | Role |
|-------|-------------|------|
| March 2021 – Present | Cognizant Technology solutions | Programmer Analyst |

## PROJECTS:

a) Project Name    Zurich Insurance

Responsibility: -
- Contributed to the backend team's work on creating API methods that communicate with databases in accordance with specified criteria.
- Part of front-end team's development and design of Angular SPA application components for desktop, mobile, and tablet views.

b) Project Name    Policy Administration System

Description: -    Details of the Consumer and, businesses and policies of the consumer are managed in the application. Here, an agent able to manage all the details of the consumer, businesses, properties and polices. Agent can add a consumer and businesses of the consumer, properties of the business.

Responsibility:
- RESTful APIs were built for an application using ASP.NET Core Web Api, and unit tests were run on the APIs using tools like Postman.
- Web APIs were also deployed into CI/CD pipelines on Microsoft Azure.
- Using CSS, Bootstrap, and Angular, user interface requirements were implemented.
- Hosted the database in the cloud using Microsoft SQL Server as the database (Microsoft Azure)
- Agile/Scrum methodology is used to create and maintain the application utilising the ASP.NET Core Web Api and microservice.
- Developed system architecture and implementation, and suggested enhancements in teams of performance, scalability, maintainability and flexibility.

## EDUCATION:
- **B. Tech (Computer Science and Engineering)** from LPU, Punjab.
- **XII(BIEAP)** from Sri Chaitanya Jr. College, Vijayawada.
